

Box Handbag Pattern

Qcustoms

Battery Box Handbag

This project took his name from a battery cover I made for a motorcycle and I took it to a motorcycle show, all the ladies were asking me to make a handbag from it so we did, and that's the pattern for it, this bag should take you about 3-4h to finish. We made 2 different locks on it so it's up to you which finish you prefer

Necessary tools for this project:

utility knife, rotary cutter, edge creaser, hole puncher 2.5mm, ruler, stitching hole puncher(I use 6mm), needles, lighter, sandpaper. and edge slicker

The thread we use is 0.8mm wax thread in orange

The leather we use is veg tan cowhide 3mm thick for the main piece and the straps

And 2mm-2.5mm thick for side panels and D-ring mounts

Shoulder straps 20mm/110cm long + 20mm/40cm long.

If you making a bag with a strap we used it here 40mm/60cm long.

FOR INSTRUCTION YOU CAN WATCH OUR VIDEO ON YOUTUBE
