

TEST PAGE

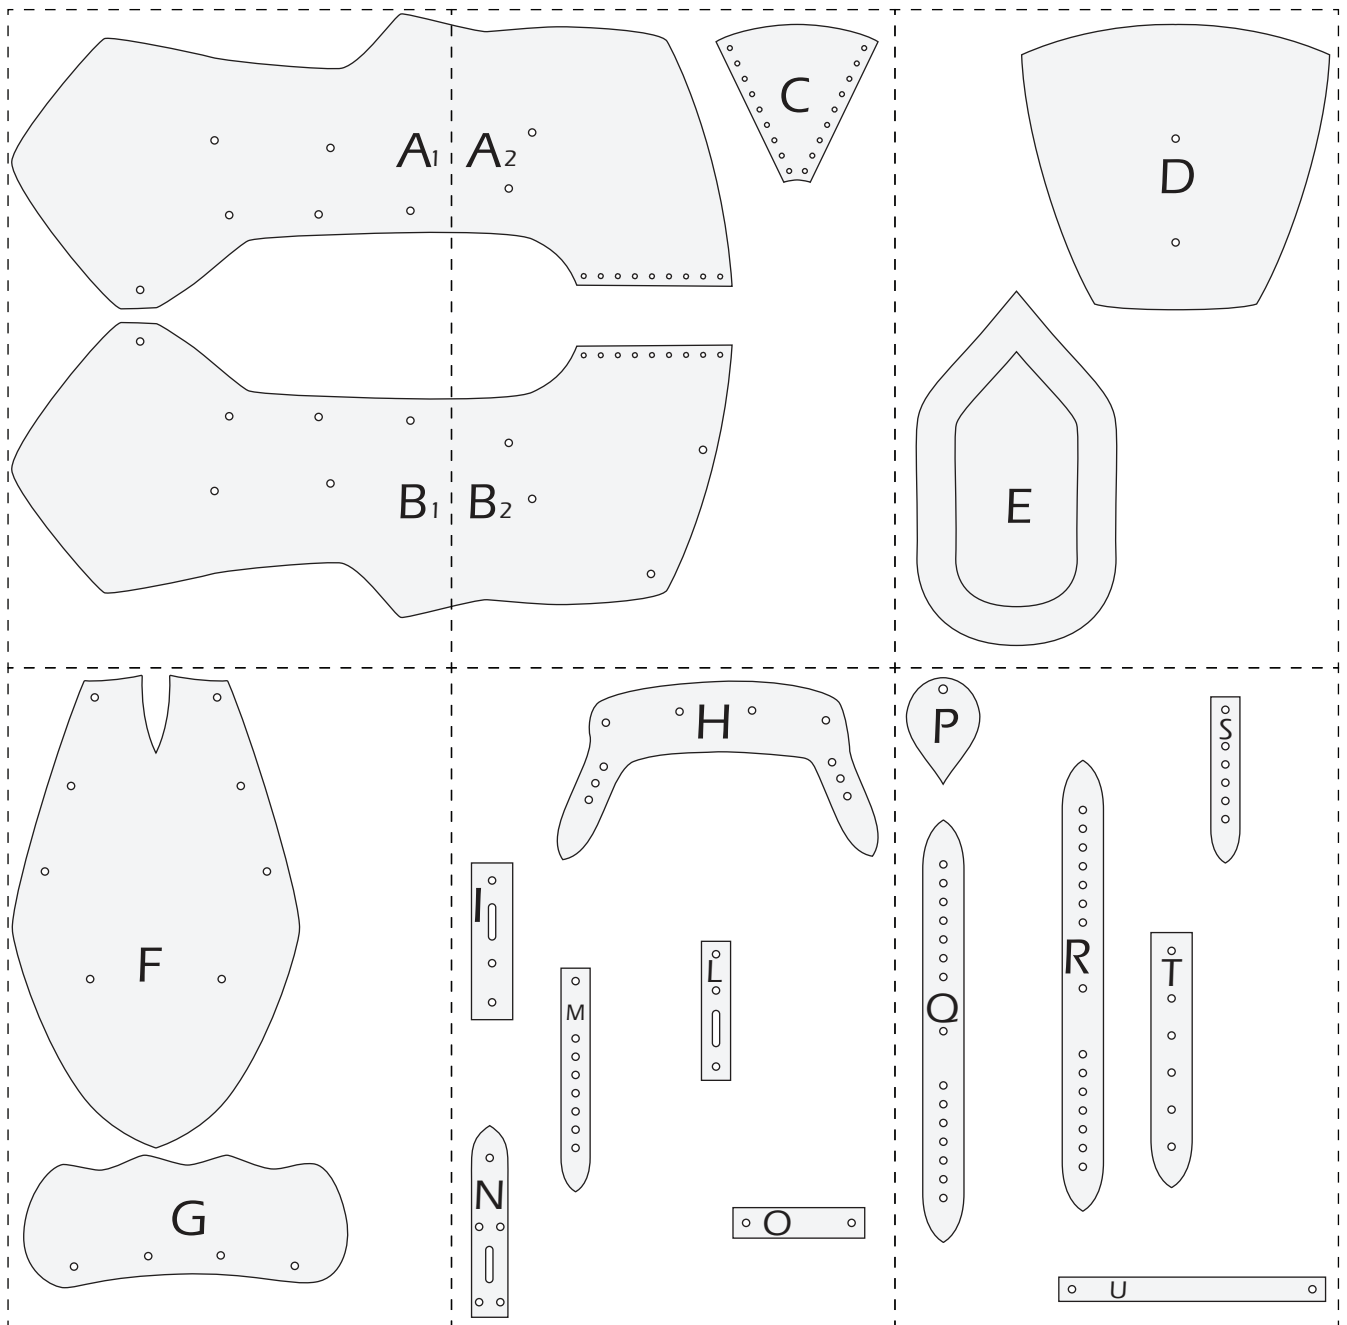

Use your A4 printer,
print this page first choosing "actual size" on your printing menu,
then measure the ruler to make sure the measures are correct

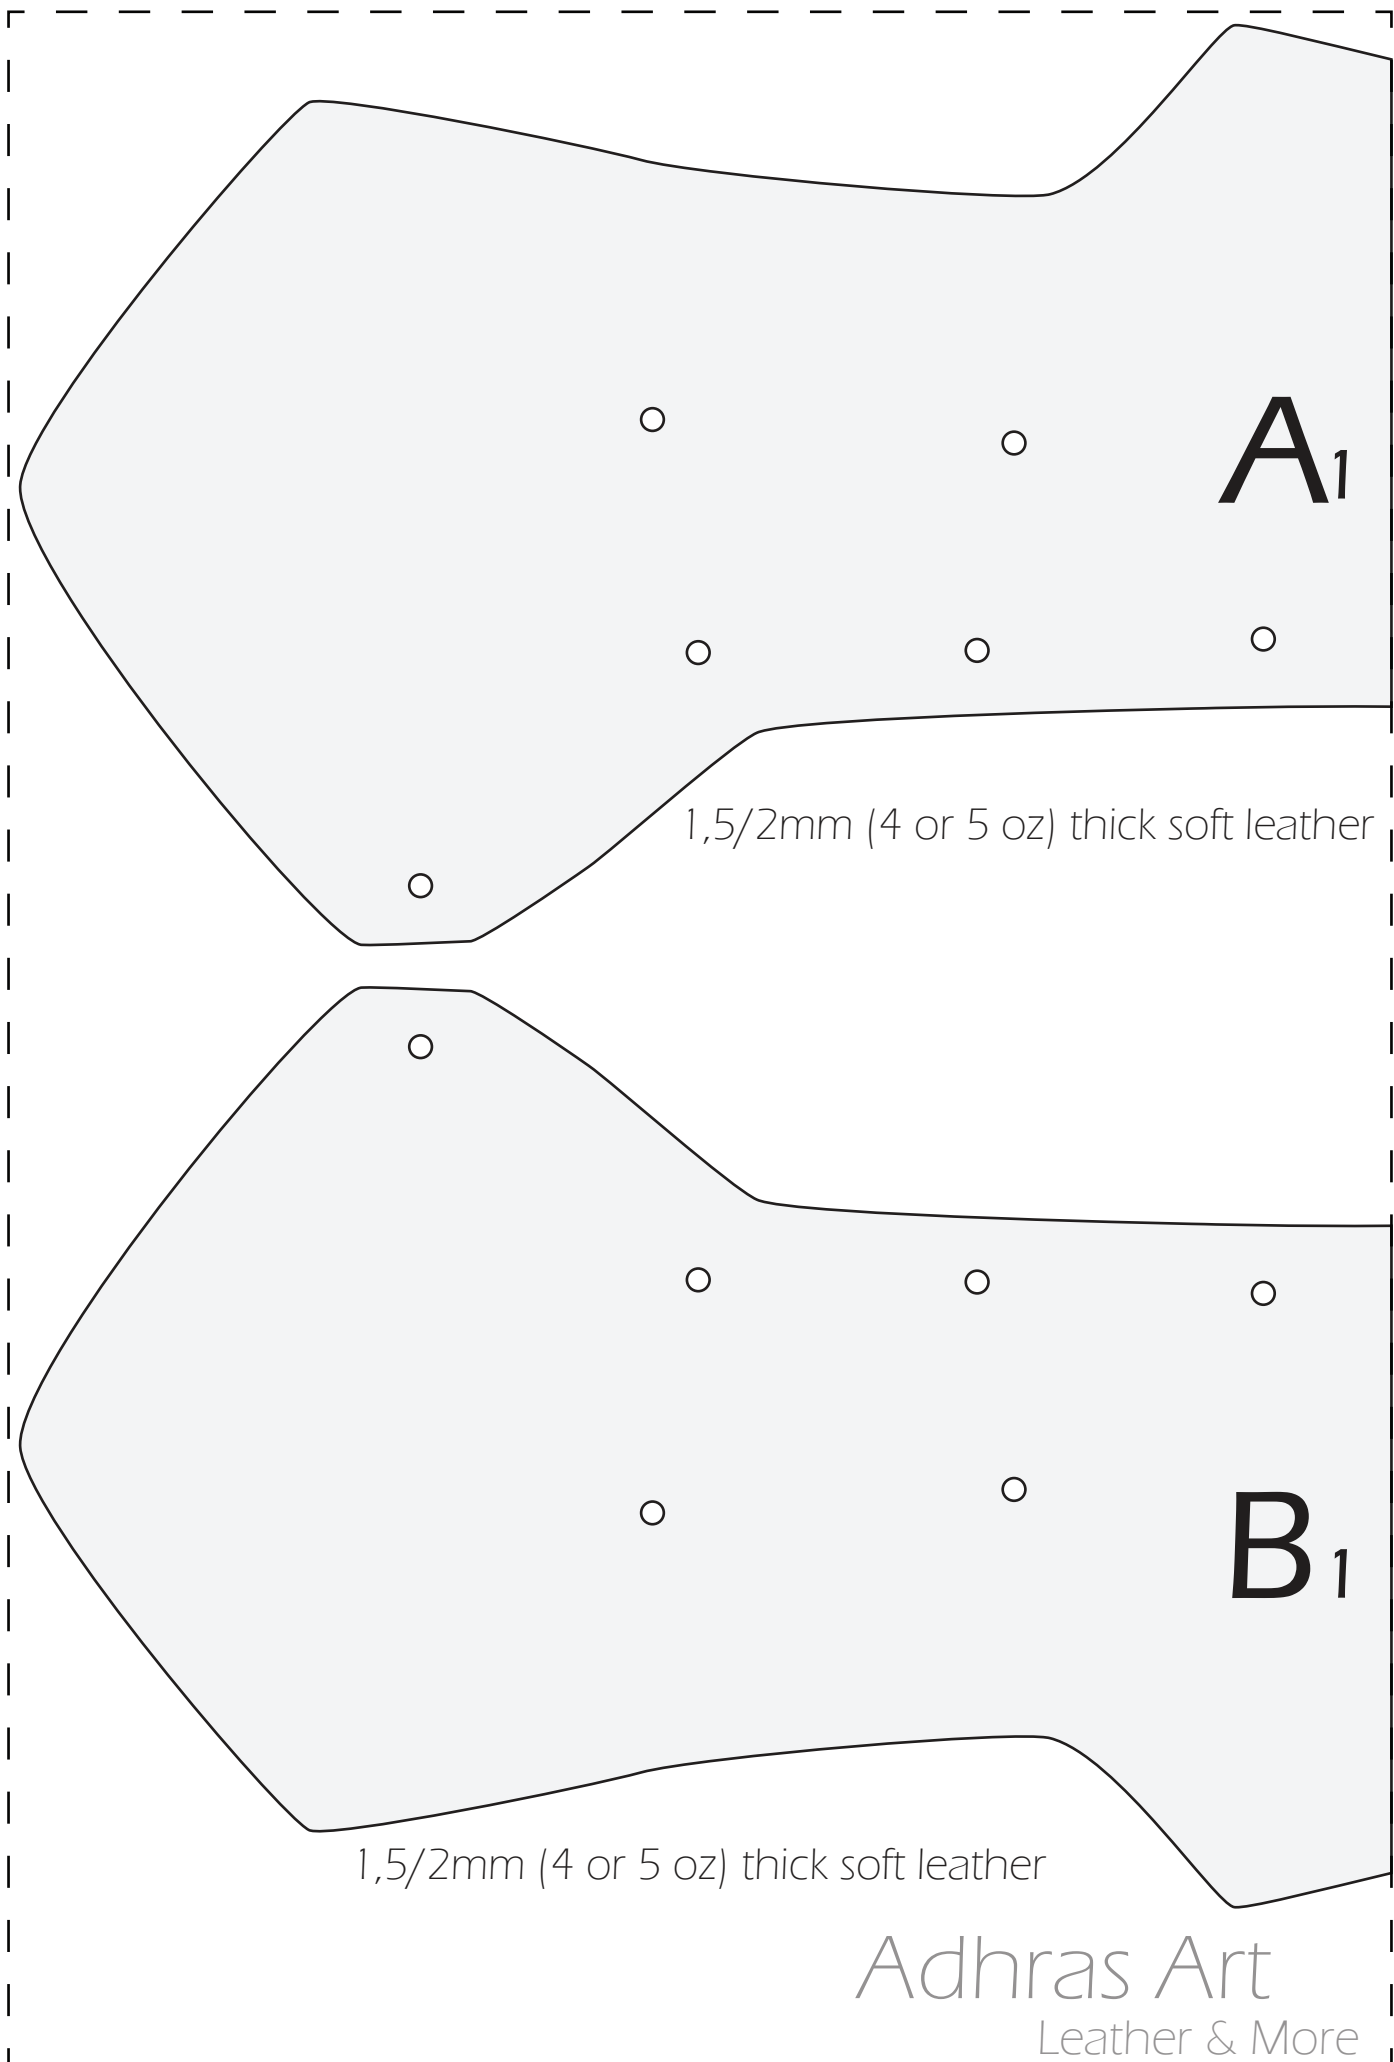

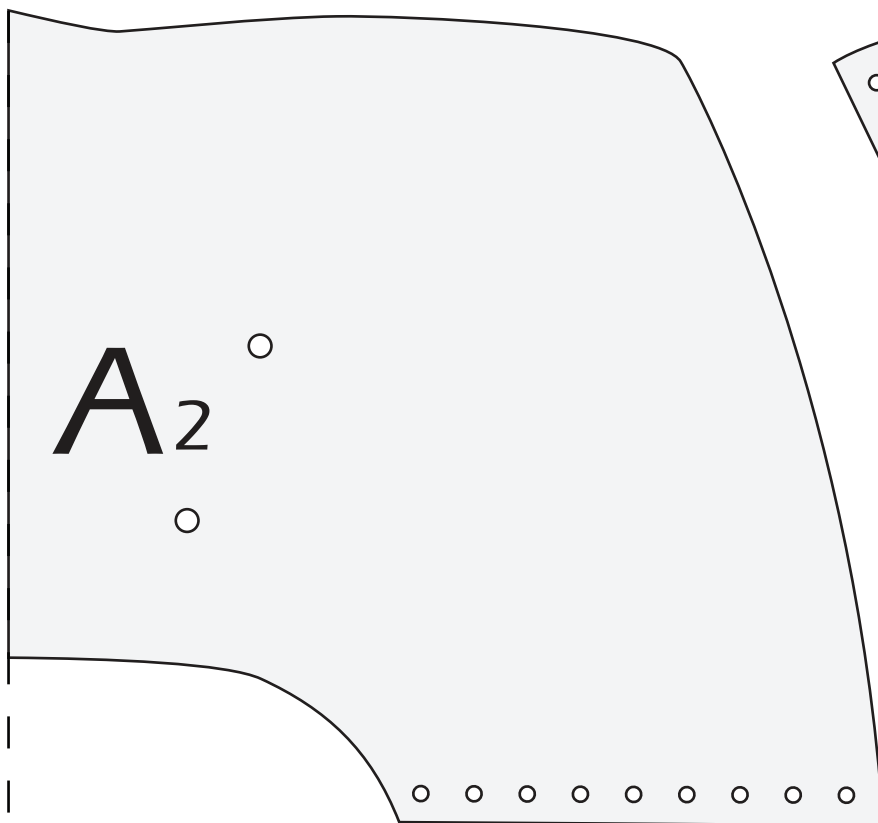

ASSEMBLY SCHEME

Some pieces are too big to enter in one page, so you need to cut and merge the piece with some tape. Some pieces are identical, so i wrote a multiplier near so you don't need to cut more paper pattern then you need.

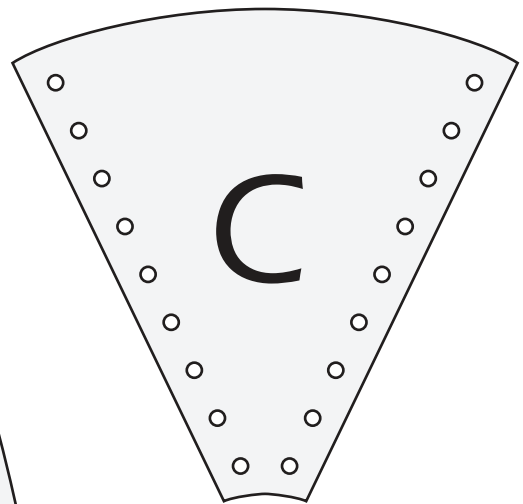

I've used three different type of leather for making this gauntlet. 1,5/2mm (4 or 5 oz) thick soft leather for base structur, (A,B and C pieces); 2mm (5oz) and 3mm (8oz) thick veg-tan leather for other pieces; and 1mm hammered steel for the knuckles. Obviously you can try all combination of material you want.
