190 mm

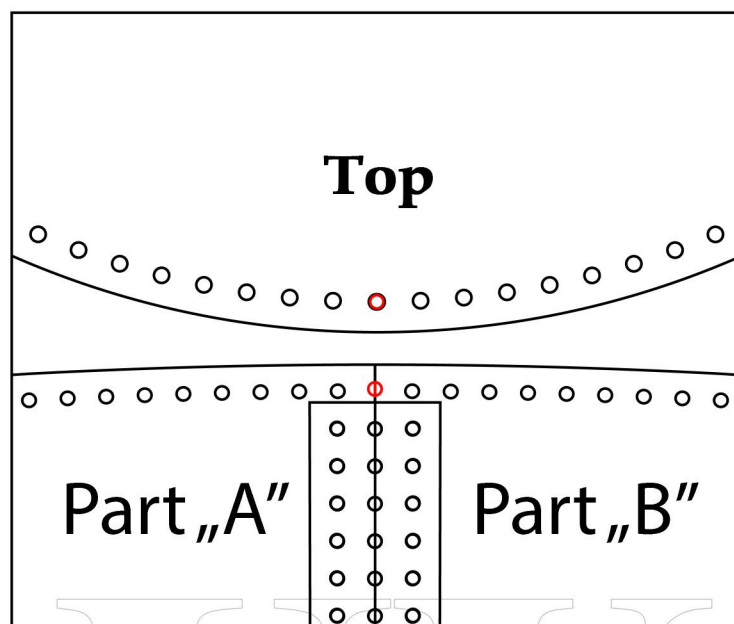

Size 54 cm

The circumference of the top of the cap is larger than that of the gusset,  
and the holes for the threads are further apart.

Therefore , for this project , use soft leather for the top and gusset which will drape well

. We used water buffalo leather with a thickness of 1.3 - 1.5 mm.

In this cap size, the thread passes from the top of the cap  
between part A and part B.  
(red mark on the pattern)
