
LEATHER VEST WITH ADJUSTABLE STRAPS

Assembly instructions

Difficulty level: Intermediate
Completion Time: 15 - 20 hours

NECESSARY TOOLS

B&W Printer

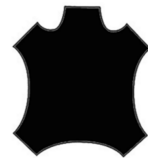

Scissors or a cutter

Hole Puncher (We recommend 1.5 - 2 mm sized holes for this build)

Approx 17 square feet of leather. (We recommend 4 to 6oz leather for this build)

Thread and needles (We recommend 1 / 1.2 mm waxed thread for this build)

17 buckles and 155 rivets

If you want to purchase the exact buckles I used you can do so here:

www.etsy.com/listing/590919596

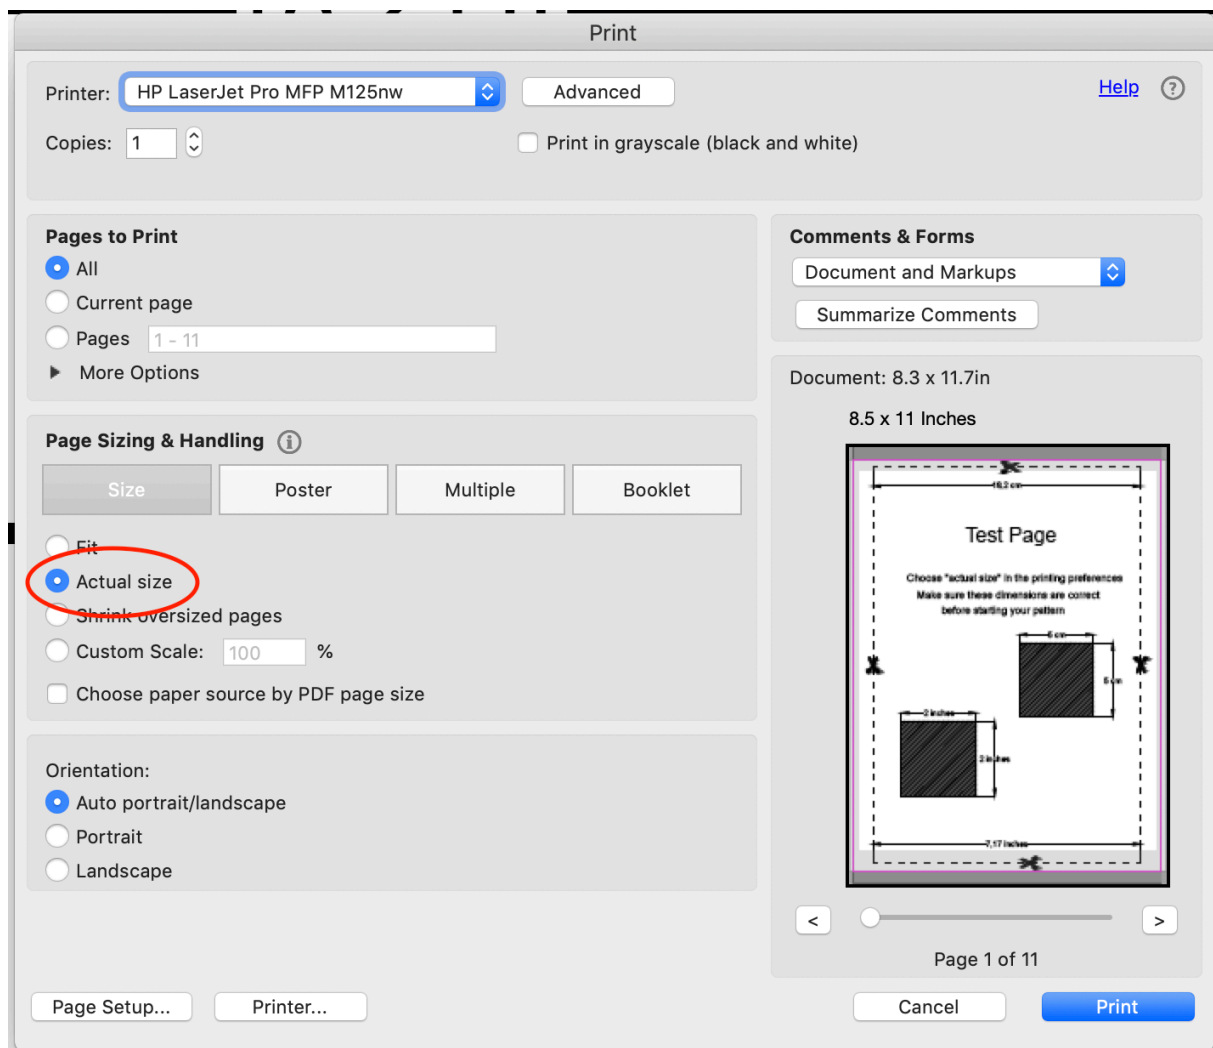

Or the 25 mm size here

www.etsy.com/listing/656001641

PRINTING THE PATTERN

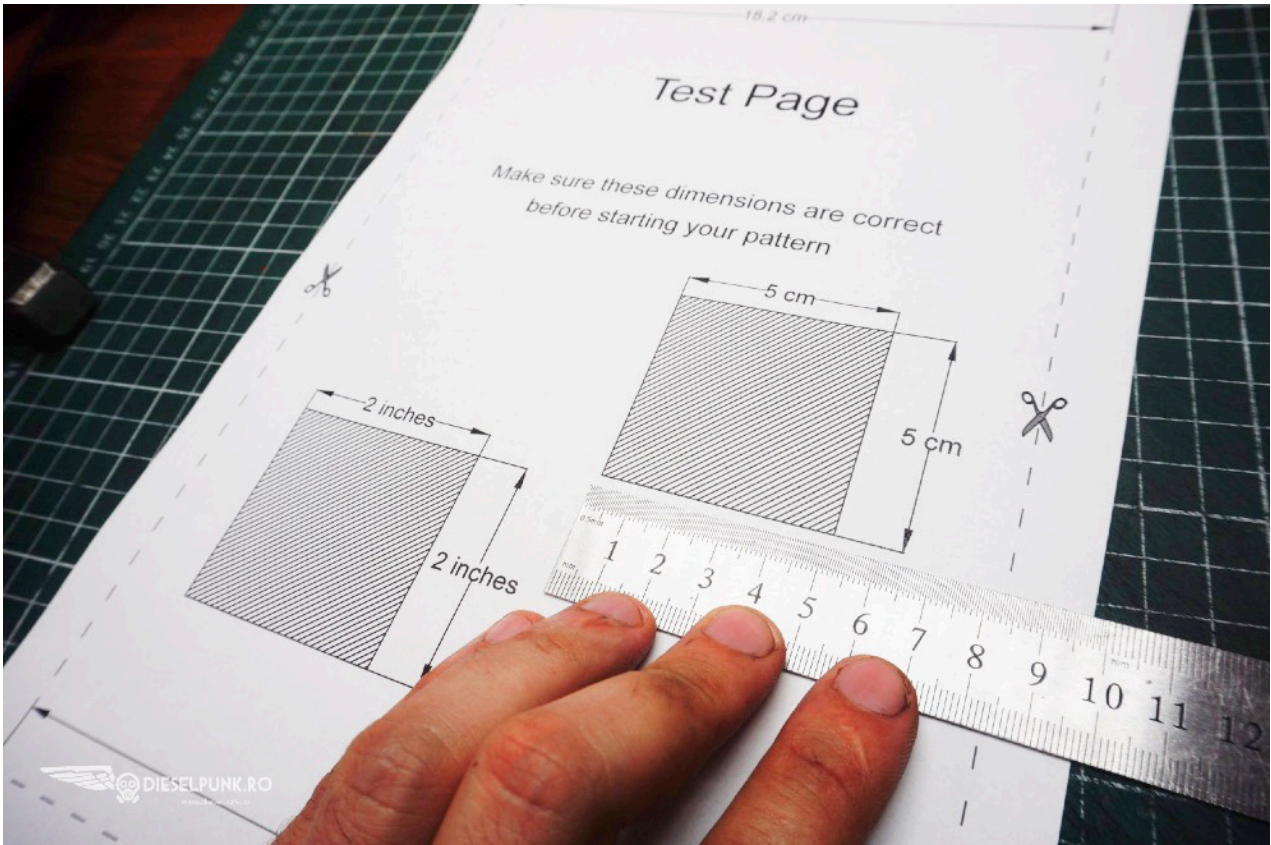

Set up your paper size to A4 and choose actual size in the printer settings

Alternatively you can use "letter" or "legal" format which is approximately the same size and will not impact the size of the product significantly

Print all the patterns.

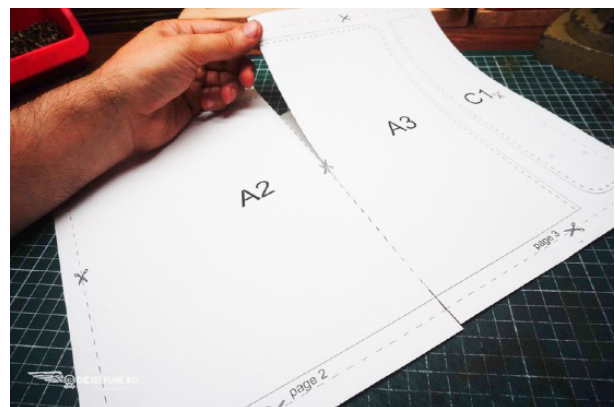

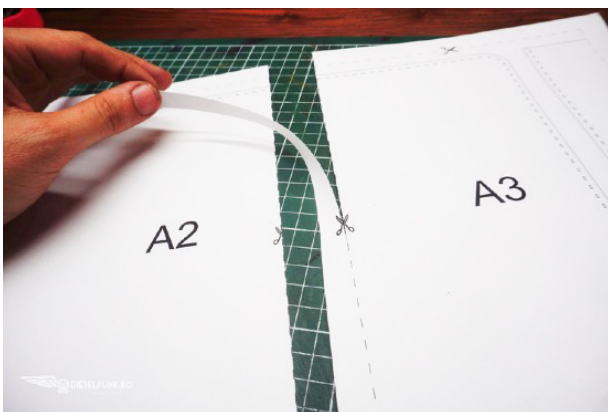

The first page is a measuring reference and you can use a ruler to make sure it matches the square. That means the rest of the pattern will print on the right size

Take note that some of the larger parts are spread over two, three or even four pages.

Use the second page of the pattern as an assembly guide

Cut out the edges and use only the inside of the page

IMPORTANT NOTE

**this project can take up to 14 square feet of leather
so I STRONGLY recommend before cutting precious leather
to carefully measure your chest and waist (across your belly)
and choose the appropriate pattern**

**After you print and assemble the paper patterns
take a few extra minutes and attach all of them together with tape
then place them around your body to check for a good fit.
DO NOT SKIP THIS STEP!**

**if nothing fits contact me with your chest and waist
measurements on Etsy for a custom size**

In order to further help with your build, we filmed the entire process from the start to finish.
