## PRINTING THE PATTERN

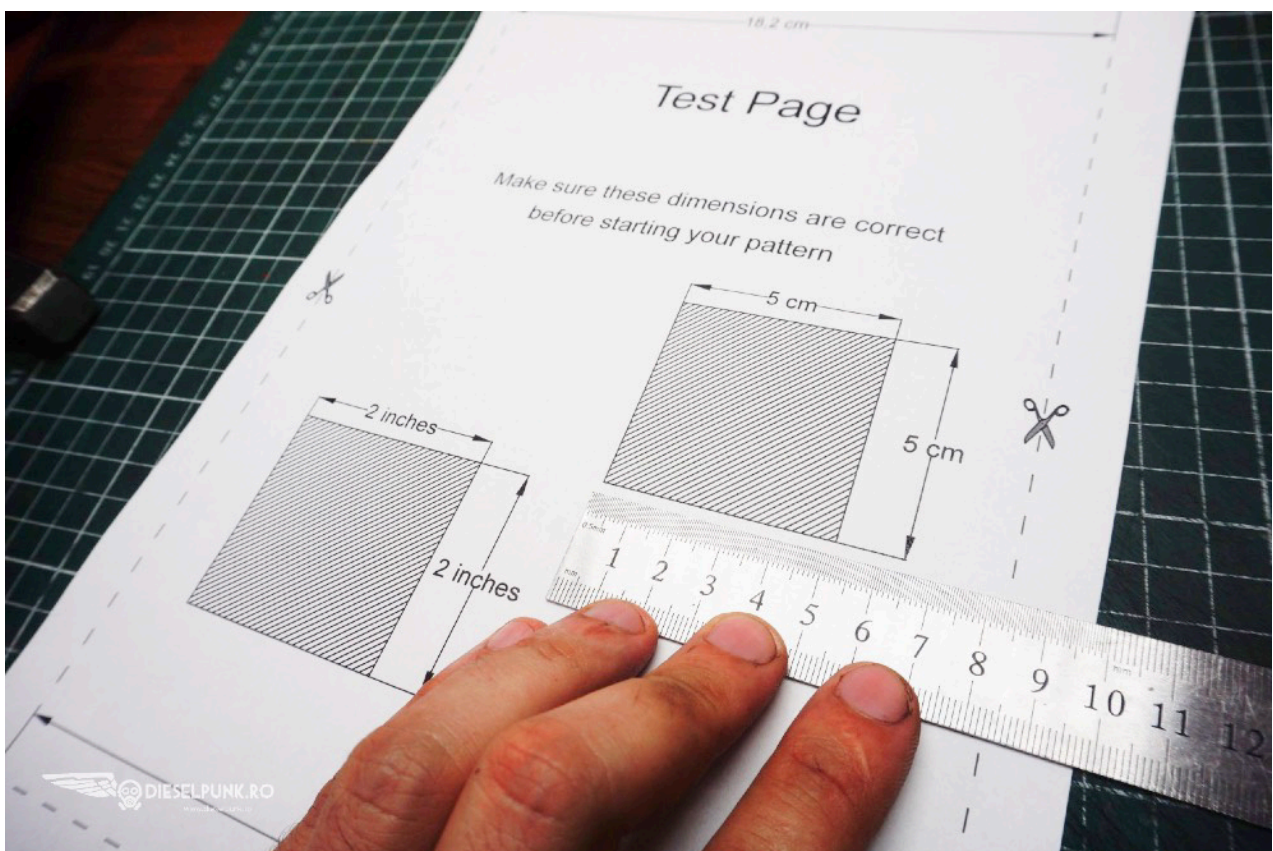

Set up your paper size to A4 and choose actual size in the printer settings

Alternatively you can use “letter” format which is approximately the same size and will not impact the size of the product significantly

Print all the patterns.

The first page is a measuring reference and you can use a ruler to make sure it matches the square. That means the rest of the pattern will print on the right size

Take note that the largest piece is spread over two pages and needs to be pasted together on the marked line.
