Notebook Wallet

PLEASE READ THROUGH INSTRUCTIONS ONCE COMPLETELY
BEFORE STARTING

Print out your template (AT 100% SCALE)

Cut out the shapes

Tape the shapes down to your leather with masking tape

Test your tape on a small piece of the leather first to make sure it doesn't leave a mark.
If it does, glue the template to a piece of cardboard and scratch out the shape onto
your leather using your awl

Cut out design

Bevel, sand, and burnish the pocket tops

Glue the card slots to the inner pocket

In the center of the card slots, punch a stitching line horizontally and stitch it up

Glue the card pocket assembly and the notebook pocket onto the main wallet body

If you want, round off the corners using your preferred method

Mark a stitching line and punch your stitching holes
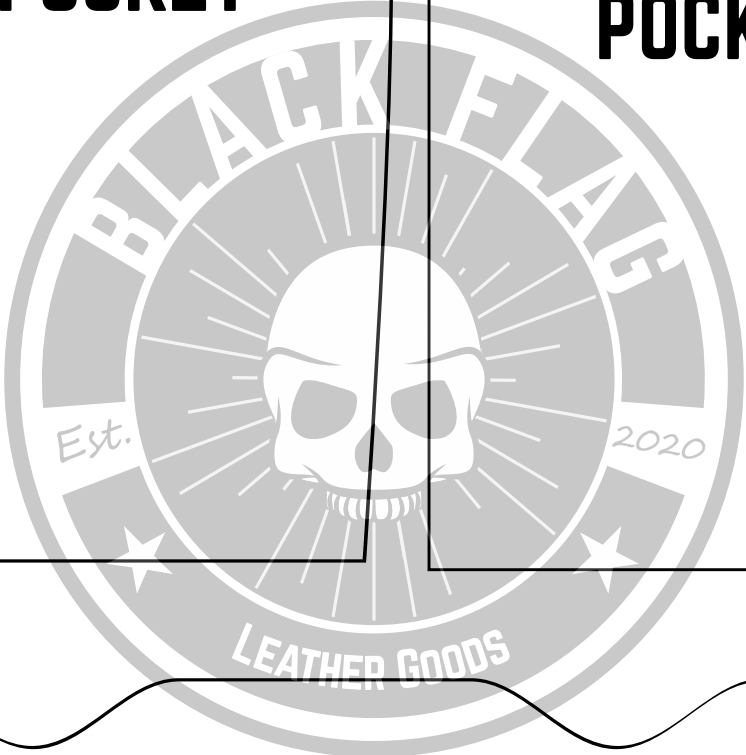

Stitch your pockets to the wallet body

Bevel/Sand/Burnish the wallet

When printing, make sure to print the true size. Measure below to ensure the image hasn't been scaled:
